

Mission Report 1953-09-█

Location: Nicosia, British Cyprus

Personnel: K █ D █, B █ F █,
T █ M █

Background: Multiple reports stated that illegal summonings of unidentified creatures took place at the A █ Forest, in Nicosia. Two agents (B █ F █ and T █ M █) were dispatched to investigate. Mission was recorded, as T M █ was in training at the time.

[Begin report]

Agents arrived at Nicosia International Airport at 13:57 on 1953-09-█ and rendezvoused with K █ D █ outside the terminal. Agents purchased a taxi ride to A █ Forest. Agents arrived at 14:41, and walked to location of reports.

[Begin recording]

K █ D █: It is here.

B █ F █: M █, is the recorder on?

T █ M █: Yes, sir.

B █ F █: Good. Activate the ARD¹, and set focus to Conjunction.

T █ M █: On it, sir.

[ARD activates, and begins scanning. After several minutes, it detects a Summoning spell of approximate fourth level]

T █ M █: It says "fourth level." What does that mean?

B █ F █: You know the SLI²?

¹ARD stands for "Arcane Radiation Detector."

²Spell Level Index

T [REDACTED] M [REDACTED]: Yes, sir.

B [REDACTED] F [REDACTED]: Because the amount of magic isn't constant, the meanings change, but fourth level means they're pretty [EXPLETIVE DELETED] powerful, but they're not gonna be destroying entire armies.

T [REDACTED] M [REDACTED]: Gotcha. And what are they summoning?

B [REDACTED] F [REDACTED]: Well, I'm gonna guess it's probably not anything too powerful, but we should be careful. D [REDACTED], have you seen anything that looks summoned?

K [REDACTED] D [REDACTED]: Well, the CSSB has received reports of wolf footprints, and there are no wolves in Cyprus.

B [REDACTED] F [REDACTED]: Aren't there foxes, though?

K [REDACTED] D [REDACTED]: Well, I had assumed that the reports were just mistaken, but now I'm not certain.

B [REDACTED] F [REDACTED]: All right. M [REDACTED], we're gonna reconstruct the spell.

[M [REDACTED] takes out an Arcane Reconstructor, which begins humming as it is activated. The spell is reconstructed]

B [REDACTED] F [REDACTED]: Yeah, tha- [static] -ummoning spell.

T [REDACTED] M [REDACTED]: Wh- [static] -rom?

K [REDACTED] D [REDACTED]: I h- [static] -guess.

B [REDACTED] F [REDACTED]: What do you thin- [static]?

K [REDACTED] D [REDACTED]: Well, I- [static] -ulphur.

T [REDACTED] M [REDACTED]: You're sayin- [static]

K [REDACTED] D [REDACTED]: It is just speculation, but ye- [static]

B [REDACTED] F [REDACTED]: Something feel- [static]

[A loud roaring noise comes from M [REDACTED]'s direction]

B [REDACTED] F [REDACTED]: Holy [EXPLETIVE DELETED]! What the [EXPLETIVE DELETED] is that?

T [REDACTED] M [REDACTED]: [screaming]

K [REDACTED] D [REDACTED]: It reminds me of the myths of Cerberus, but- [static]

[Several gunshots from near F [REDACTED]]

K [REDACTED] D [REDACTED]: Well, whatever it was, it is dead now.

T [REDACTED] M [REDACTED]: It died fast.

B [REDACTED] F [REDACTED]: Silver bullets. I'm pretty- [static] -ow what it is now.

K [REDACTED] D [REDACTED]: What do you think it is?

B [REDACTED] F [REDACTED]: Hellhound. *Canis Infernalis*, I'm pretty sure is the scientific name. But the question is, what the [EXPLETIVE DELETED] was it doing here. Who summoned it, I should say.

K [REDACTED] D [REDACTED]: I will launch a search from here. I believe you have done what you need to.

B [REDACTED] F [REDACTED]: Good luck, K [REDACTED].

[End recording]

[End report]
